Learning outcomes

4.1 Students shape their own development independently on the basis of their own learning wishes as future HBO professionals, substantiating and justifying choices made during the process, the learning result and further development as HBO professionals.

Content

The 5 EC free space is intended as space for the student to shape what he/she wants to learn. This involves content that is not offered within the regular FM full-time curriculum. In addition to allowing the student to provide his/her own content, the aim is also to demonstrate and teach that the student can provide his/her own interpretation of free space, facilitate, monitor his/her own learning and challenge himself/herself to develop further as a professional.

The profession is disconnected from this learning outcome, however, HBO bachelor level is expected. By disconnecting or not requiring the profession, the student is given room to explore content that is not directly linked to the profession.
