## Learning outcomes

**Artistic practice**
You will develop a personal artistic vision, from which, under the guidance of a tutor, you will facilitate artistic processes and create artworks in practice.

**Context-based practice**
You will collaborate with professionals in the field to develop meaningful art education initiatives based on current social and societal themes.

## Content

**Dance Domain**: this domain focuses on mastering the technical components of dance.
The Dance Technique domain is divided into a core and a foundation section, with technical mastery being acquired in the foundation section and the core section serving as a bridge between technique, the various dance styles and the professional field.

**Base**

**Ballet**
Ballet forms the foundation upon which all other dance techniques are built. This also includes the element of pointe work (Ballet Pointe).

**Modern Dance**
Modern Dance technique serves as the basis for PopTheatreMusicalDance technique, but is also a standalone dance technique. Modern dance is combined with creative development. Creative development aims to teach students to develop creative products, including the design of choreographies.

**Jazz Dance**
Jazz Dance serves as the basis for PopTheatreMusicalDance technique, but is also a standalone dance technique.
Dance Analysis is linked to the core subjects in the Dance domain. Dance Analysis encompasses the theory and analysis of techniques.

**Acrodance**
Acrodance helps to optimise physical development and acrobatic skills and supports the various dance techniques.

**Training sessions**
Training sessions are offered in period E during rehearsals for Project Integration. The basic techniques are maintained in the training sessions.

**Core**

**Dance Trends**
Dance Trends is a separate module and an independent dance technique based on non-academic dance forms. This module is constantly subject to innovation, trends and change.

**Pop Theatre Musical Dance (PTMD)**
In this module, the various dance styles come together and a bridge is built between the different techniques. Here too, students learn to develop creative works, including the design of choreographies.

**Theatre Latin Standard Dance (TLSD)**
Theatre Latin Standard Dance is a component of ballroom dancing and a collective term for various dances that have evolved from traditional non-academic dance forms. Since the early twentieth century, these dance forms have been standardised into independent dance techniques.

**Rhythm/Tap**
Tap dance serves as the basis for PTMD, but is also an independent

technique. Tap dance is a dance form in which rhythmic sounds are produced with the feet.
