Learning outcomes

At the end of this study unit, the student will be able to:

- Structure her/his report writing
- Formulates clear research questions
- Assess the reliability of sources from different media
- Draw conclusions on problem definition based on data
- Distinguish the different roles that he/she can perform in a team
- Reflect on his/her own performance
- Reflect on her/his personal development during the first year
- Make an informed choice about future study

Content

1. Personal development: The student continues the development of life-long learning skills, feedback and listening skills
2. Report writing: The student continues with the work on academic writing skills. Extra attention will be paid to problem definition (i.e., formulating research questions) and assessing the reliability and validity of sources of information.
