Learning outcomes

3. Influences individuals and teams to achieve shared results, based on insight into their own functioning and leadership role; identifies personal development areas for this leadership role and demonstrates awareness of individual development needs within this context.

6. Communicates their own vision on care and health, service delivery, and leadership in a clear and accessible manner, and gives meaning to this vision by connecting it to the organization's vision and objectives.

Content

To acquire basic knowledge in the field of communication skills and functioning within a team.

Within the team, the professional practitioner gains experience with forms of consultation and decision-making processes, collaboration, giving/asking feedback and team building. Within the team, he will also experience and contribute to shaping changes and innovations as a result of new policies.
