CLO2 contributes to: PLO 4

CLO3 contributes to: PLO 4

CLO4 contributes to: PLO 4

CLO5 contributes to: PLO 4

CLO6 contributes to: PLO 5

Content

Strategic Focus Areas: Entrepreneurship and Global Mindset.

In the Professional Skills Development & Leadership (PSKL) course, students develop their learning process towards becoming interdisciplinary business professionals.

This course focuses on continuous professional development through reflection on behaviour, values, personality, leadership style, diversity & inclusion, and conflict style in a social and professional context, leading to increased self-awareness of strengths and areas for development.

Based on this, students build their leadership toolkit and experiment with new behaviours in workshops and practice-based experiences, supported by feedback and reflection.

Progress and development are documented in a portfolio, which forms the basis for assessment through an interview in which students demonstrate achievement of the course learning outcomes and their development process.

This course links to SDG 4; 8 and 16

Included in programme(s)

Interdisciplinary Business Professional

School(s)

Business & Law
