

Course: Dance Technique step 11

credits: 15

Course code	DAVB26DA11
Name	Dance Technique step 11
Study year	2026-2027
ECTS credits	15
Language	Dutch, with parts in English
Coordinator	S. Sanchez Lozano

Modes of delivery	Education
Assessments	TEST-01 - Co-assessment

Learning outcomes

Artistic

You are able to give meaning to creative processes and performing arts productions within professional practice, based on your own artistic vision.

Technical

You apply a broad range of technical skills and knowledge in a professional manner both within and outside the educational context.

Inquisitive and reflective

You adopt an inquisitive approach and use insights to improve your own practice, placing your own actions within a social context.

Content

Dance domain: this domain focuses on mastering the technical components of dance. The Dance Technique domain is divided into a core and a foundation section, with technical mastery being acquired in the foundation section and the core section serving to bridge the gap between technique, the various dance styles and the professional field.

Base

Ballet

Ballet forms the foundation upon which all other dance techniques are built. This also includes the element of pointe work (Ballet Pointe)

Modern Dance

Modern dance technique serves as the foundation for PopTheatreMusicalDance technique, but is also a dance technique in its own right. Modern dance is combined with creative development. Creative development aims to teach students to develop creative works, including the design of choreographies.

Jazz Dance

Jazz Dance serves as the foundation for PopTheatreMusicalDance technique, but is also a standalone dance technique.

Acrodance

Acrodance helps to optimise physical development and acrobatic skills and supports the various dance techniques.

Fusion

In Level 11Ba and Level 12Ba, the Fusion module forms part of the basic dance technique domain. Fusion combines two or more dance styles, each with its own stylistic characteristics. The module trains stylistic sensitivity, as well as freedom in handling and combining stylistic characteristics.

Training sessions

Training sessions are offered in period E during rehearsals for Project Integration. These sessions focus on maintaining basic techniques.

Core

Dance Trends

Dance Trends is a separate module and an independent dance technique based on non-academic dance forms. This module is constantly subject to innovation, trends and change.

PopTheatreMusicalDance (PTMD)

In this module, different dance styles come together and a bridge is built between the various techniques. Here too, students learn to develop creative works, including the design of choreographies.

Theatre Latin Standard Dance (TLSD)

Theatre Latin Standard Dance is a component of ballroom dancing and a collective term for various dances that have evolved from traditional non-academic dance forms. Since the early twentieth century, these dance forms have been standardised into

independent dance techniques.

Rhythm/Tap

Tap dance serves as the basis for PTMD, but is also an independent technique. Tap dance is a dance form in which rhythmic sounds are produced with the feet.

Included in programme(s)

Dance (Amsterdam)
Dance (Gronngen)

School(s)

Arts, Design & Built Environment
