

Course: Basics of Pop Drums

credits: 2

Course code	SPCCV26BPD1	Modes of delivery	Action learning
Name	Basics of Pop Drums	Assessments	TEST-01 - Other assessment
Study year	2026-2027		
ECTS credits	2		
Language	English		
Coordinator	W.H. Buma		

Learning outcomes

By the end of the module, you'll be able to play basic pop drum parts with confidence and understand the drummer's role in a rhythm section.

Content

The Basics of Pop Drums is a hands-on module for non-drummers who want to get comfortable behind the kit. Aimed at instrumentalists from other disciplines, the course focuses on practical skills and musical awareness, covering essential techniques such as stick control, coordination, and timing.

You'll learn to play fundamental grooves and fills, and apply them in musical contexts like playing along with tracks or supporting a band. To support your progress, you'll receive ongoing feedback through in-class playing tasks and focused practice moments.

Lessons will likely be divided into smaller groups to ensure more personal attention and sufficient playing time for each student.
