Sport Studies

Profile of the programme

The Bachelor programme Sport Studies comprises 180 ECTS credits (a first-year programme of 60 ECTS credits and a main phase programme of 120 ECTS credits).

The degree programme is practice-orientated: Challenges is the field and other practical components form an essential and compulsory part of this programme, and a professional year of 60 ECTS credits.

Learning outcomes

LIL0 1: Identity of the sports professional

The sports professional uses reflection, knowledge and the experiences of others to develop their own professional identity in a systematic manner, and so contributes to their own development and the direct professional environment.

LIL0 2: Research and development

The sports professional is inquisitive when it comes to sport and exercise. They work methodically under supervision and take a healthy interest in improving the industry. They ask questions, analyse and interpret research results and conduct applied and design-based research, under supervision, in a given context. They use the knowledge and insights they have gained to develop appropriate sports and exercise products, under supervision.

LIL0 3: Coordination, positioning and supervision

The sports professional coordinates, positions and supervises projects and programmes that promote sport and exercise. The sports professional initiates these projects and implements these exercise programmes, in association with others and under supervision, and in doing so is able to implement or coordinate at the tactical and operational levels, depending on what the situation requires.

LIL0 4: Leadership, management and organisation

Within a given context, the sports professional manages and organizes proper business operations and the proper performance of duties (un-der supervision), and shows an enterprising attitude while doing so.

LIL0 5: Evaluation and advice

The sports professional develops, advises on, implements and evaluates sports and exercise strategies and policies, under supervision. In doing so, the sports professional independently manages the policy cycle with a view to safeguarding and developing the continuity and quality of the sports and exercise products as well as the organisation itself.
