

## Vak: Experience learning 1

credits: 6

<b>Vakcode</b>	BVVH19DEEXP1	<b>Werkvormen</b>	Action learning Individueel Intervisie Opdracht Practicum / Training Projectonderwijs Simulatie Supervisie
<b>Naam</b>	Experience learning 1		
<b>Studiejaar</b>	2019-2020		
<b>ECTS credits</b>	6		
<b>Taal</b>	Engels		
<b>Coördinator</b>	O.M. Akkerman		
		<b>Toetsen</b>	Experience learning 1 - Overige toetsing

### Leeruitkomsten

1. The student can make a project plan
2. The student can make a statement of requirements
3. The student can make a preliminary design of several alternatives and can select (underpinned) the best alternative.
4. The student can make the necessary technical calculations needed for the design
5. The student can make a detailed design of the chosen alternative
6. The student can make a cost estimate and a construction site planning.
7. The student knows how to report the design and other findings in a complete, correct and transparent way

### Inhoud

'Experience Learning 1' is a case study of the adjustment of polder pumping station Schaphalsterzijl. We start with some project management that you need for the team work during this case study. You work in a group of 3-5 students. You apply fluid mechanics theory to select a pump for pumping station Schaphalsterzijl and design its construction.

### Opgenomen in opleiding(en)

Minor Delta Engineering

Built Environment Exchange Delta Engineering (spring)

### School(s)

Academie voor Architectuur & Built Environment
