Leeruitkomsten

Main learning outcome:

The student demonstrates an active attitude towards his personal and professional development in the study as well as in the FM work field.

The student:

Has 1 individual talks with his Academic Counsellor in which he evaluates his entire study in order to make choices for his graduation and, possibly, thereafter;

Presents his experience of his year abroad to the 1 and 2 year students;

Has written a blog about his exchange covering practical issues and intercultural experience and growth;

Inhoud

By means of an individual talk the student is guided towards his graduation. The student is asked to critically think about his own learning aims, preferences, development and how to increase his ability to function in the FM work field.
