Inhoud

In the STM1 course, students are provided with the contemporary thinking, perspectives practices in the field of Strategic Management. Students will learn of the historical development of the strategic management competences until where it stands today. In the multiple formats used in this course (lecture, seminars and workshops) the student will learn how to analyze both the internal and external environment of organizations from a strategic perspective. Students will do this by using theories, concepts, models and frameworks that are very suitable to be applied in the field of strategic management. By analyzing organizations this way, students will develop a holistic perspective on the challenges and opportunities of organizations, aimed at a successful and sustainable future of its stakeholders.
