

## Vak: Specialisation Ocean Energy (Lisbon)

credits: 30

<b>Vakcode</b>	ZWVH2SOE	<b>Werkvormen</b>	Onderwijs
<b>Naam</b>	Specialisation Ocean Energy (Lisbon)	<b>Toetsen</b>	Spec. Ocean Energy - Overige toetsing
<b>Studiejaar</b>	2020-2021		
<b>ECTS credits</b>	30		
<b>Taal</b>	Engels		
<b>Coördinator</b>	C.B. Vogt		

### Leeruitkomsten

General learning outcomes for the specialization semester

The specialization semester is organized to provide the students with sufficient technical knowledge on Ocean Renewable Energy while also providing them with a good grounding in the role of marine renewables in the energy sector.

- Sound understanding of the role of marine renewable energy technologies in the energy sector
- Basic technical knowledge on the different marine renewable energy technologies that are and will be contributing to energy supply covering the following aspects :
  - o evaluation of the resource
  - o conversion process
  - o performance of systems in operation
  - o tools for simulation and design
- Ability to make an economic evaluation of the profitability and competitiveness of marine renewable energy projects.
