Studiejaar	2026-2027		Professional Skills - Overige toetsing
ECTS credits	10		
Taal	Engels		
Coördinator	E. van der Wagen		

Leeruitkomsten

The student works at level 1 on the following learning outcomes:

- The student demonstrates professional skills by means of a guided assignment in a clearly defined financial-economic context.
- The student advises and communicates in a professional manner by means of a guided assignment in a clearly defined financial-economic context.

The student demonstrates the learning outcomes through a combination of behaviours and evidence items.

Inhoud

In this project you work, by means of a practice-oriented case, on the themes 'professional skills' and 'professional advice and communication'. You deepen your understanding of issues from practice and at the same time develop skills such as, for example, collaborating, using IT tools, conducting conversations and writing. At the end of the project you demonstrate that you master the learning outcomes by means of a portfolio and a criteria-based interview.
