

Vak: Research Skills

credits: 5

Vakcode	RWVM23ETP
Naam	Research Skills
Studiejaar	2026-2027
ECTS credits	5
Taal	Engels
Coördinator	P.M. Gomes Lourenco

Werkvormen	Onderwijs
Toetsen	Assignment Research Project - Opdracht Professional Skills - Opdracht

Leeruitkomsten**Objective of the module:**

At the completion of this module the students are competent:

1. In conducting applied research, by formulating a problem and knowledge gap, employing specific research methods, collecting relevant data, and drawing conclusions from the results achieved, showing a reflective and critical attitude towards the possibilities and limitations of the scientific methods used and the research outcomes.
2. In to timely achieve set goals in a(n) (international, multicultural and) multidisciplinary (project) team
3. To communicate in a clear and structured way in both written and oral form to the client and other stakeholders, and in English to the scientific community
4. In addressing (reflecting on) relevant political, social, legal, environmental and economic aspects of renewable energy implementation

Inhoud

This module consists of 2 courses:

1. Research Methodology and Research Project (5 EC) Research methodology is introduced with the aim to teach students how to design, conduct and report proper applied and design research results.
2. Professional Skills and Mentoring (Pass or Fail)
The course Professional Skills and Mentoring covers the guidance in the personal professional development of the student, in presentation skills and in project based working. After this topic the student is able to make
 1. a reflection of the students professional development, which is discussed with his mentor. This reflection will be based on the PDCA-approach.
 2. a self-evaluation report and re-orientation, based on the student's progress during the core semester.
