Inhoud

Content of the course component: In collaboration with relevant stakeholders, the student coordinates parts of an interactive organization & company business orientation. Initially, the student coordinates parts of the organization & company business orientation. Secondly, the student analyses the positioning of different projects and programs and their relevant stakeholders and networks during the organization & company business orientation. Thirdly, the students will work during a hackathon to find solutions for the professional problems/challenges as inventoried during part 1 and 2. The student requires the content of BOK 1, 2 and 3, to come with advises to solve the professional problems raised by stakeholders during the hackathon.

Course structure: The course consists of guest lectures, regular lectures, and tutorials led by your instructor.

Assessment structure: Portfolio assessment
