Master of Music, major New Audiences and Innovative Practice

Programmabeschrijving

The PCC's Master of Music is a two-year full-time program aimed at talented and socially engaged musicians at a professional master's level. The program consists of three departments with one common training profile: Classical Music (CLA), New York Jazz (NYJ), New Audiences and Innovative Practice (NAIP).

Students and alumni of the Master of Music are active in a broad, regional and international music sector. The program supports them in the further deepening and broadening of the professional practice, stimulating crossovers between disciplines and connections with other sectors. During their studies, students work on the development of their specific professional practice. In doing so, they are involved with for instance music schools, music associations, youth centers, orchestras, brass bands, bands, studios, production companies, stages and collectives. Artistic and craft competence, entrepreneurship and research connected to professional and societal issues stands central to the PCC's Master of Music program.
